

South Kentucky RECC is currently accepting resumes for **Lead Line Technician**
For the McCreary County District Office – Grade 10.5, Non Exempt

Qualifications:

High School diploma or equivalent. Must have completed SKRECC's apprentice program (or equivalent) and have at least 2-3 years experience as a Line Technician 1st class or equivalent position in line work. Must have Class A CDL license, CPR/First Aid training, Hot Line Experience, Pole Top Rescue training and climbing experience.

Job Requirements:

Responsible for the observation of all safety rules and for using all proper safety equipment. Will be required to be in the "on-call" rotation and live within 30 minute driving time (using Google™ Maps) to the McCreary County office. Leads crew when Crew Foreman is absent or assigned to other duties. Must be familiar with ropes, gins, blocks and knot tying. Working knowledge of REA specifications for proper construction of electric facilities. Must be able to complete installation of materials based on specifications. Must be qualified to perform pole top rescue and CPR. Responsible for training of new employees. Responsible for assisting with annual inventory. Must be or become familiar with system area and have the ability to use maps. Basic computer skills are required. May be required to operate GPS unit. All other duties as assigned. Analyzes work orders and coordinates material needed for daily work. Required to observe, report and repair conditions perceived to be harmful or potentially harmful to consumers, employees or the general public. Performs individually all phases of construction, operations and maintenance of energized and de-energized electric lines. Assists crews in building new lines to members. Inspects vehicles and equipment thoroughly prior to daily operation. Ensures proper pole framing is performed to meet RUS and cooperative specifications. Supports safety policies and procedures and follows all safety rules and regulations. Operates all Cooperative equipment (including all vehicles) in a safe and efficient manner. Assists maintenance in the restoration of service during outages. Assists crew in the installation of primary underground and secondary services. Installs meters, disconnect collars, line regulators, oil circuit reclosers, capacitors, switches and other line equipment. Observes lines for any hazardous conditions that could cause issues; corrects issue or follows up with McCreary County District Office Manager. Assists in clearing right-of-way, digging holes and framing/setting poles and anchors as required. Assists members by answering questions or addressing concerns. Participates in employee meetings and safety meetings keeping current on first aid procedures.

Working Conditions:

A scheduled work week is 40 hours. Due to business necessity the work week may periodically exceed 40 hours with work on nights, weekends and holidays possible. Most work will be performed outdoors with some work indoors and possibly in extreme weather conditions.

Physical Requirements:

Frequently heavy lifting is required (loading and unloading materials such as transformers, wire, tools, etc.) Operates digger truck and bucket truck frequently. Frequently stands, walks, stoops, bends, climbs, reaches and pulls objects. Frequent contact with members and the general public (getting permission to work on property, answer questions about electrical service, etc.). Daily written communication (work orders, property damage reports, etc.). Accuracy and attention to detail is required (work orders, staking sheets, etc.) Meeting deadlines while working under pressure is routine (repairing lines during outages, prioritizing jobs daily, etc.).

Benefits:

- Health, dental, 401K, holidays, vacation and more.
